

February 2019

Dear Parents/Carers,

BAE Systems Interactive Roadshow for Year 7 and Year 8 Students

On Wednesday 6th March, the Year 7 and 8 students will take part in a fun, interactive roadshow delivered on behalf of BAE Systems, in partnership with the RAF and the Royal Navy.

The roadshow has been devised to increase the number of students studying STEM subjects in schools, to hopefully increase the number of UK scientists and engineers in the future.

The new show for 2019 is called “Are we connected?” and will focus on communications and data. It will cover how mobile phones connect people around the world, how computers talk to each other and how we talk to our devices. The show will introduce students to the real life application of some of the most recent communication technologies within BAE Systems, the RAF and the Royal Navy.

The interactive show supports National Curriculum targets. Students will be invited to participate in some of the demonstrations. They will also have the opportunity to take part in problem-solving games to demystify the subject and help embed learning. We hope our students find this roadshow inspiring.

Thank you for your support.

The Careers and HeppSY Team,
Outwood Academy Adwick
