

A Level Results 2018

Outwood Academy Adwick is delighted to share some excellent results at post 16 where our 35 students have secured a pass rate of 90% and improved yet again on our value added score from the previous year.

Particular individual successes at the Academy include Ross Waddoups who achieved an incredible four A* grades at A Level and is going to Sheffield University to study architecture and Connor Taylor who achieved an A*, A and two B grades and is looking forward to going to Exeter University to study maths. Positive destinations have been secured for all students including university, apprenticeships and the armed forces. We wish them all a successful and happy future.
